

# Clinic for Special Children

535 Bunker Hill Road, PO Box 128, Strasburg, PA 17579 T 717.687.9407 F 717.687.9237

To our friends,

The Clinic for Special Children continues to provide comprehensive local medical care, integrate science and clinical medicine and share knowledge to improve the health of children who suffer from genetic disorders. As our organization and clinical care capacities grow constantly, we remain committed to providing the same high quality care we are known for. We continue to attract top medical talent to our clinical team who specialize in the fields of pediatrics and genetics.

We are proud to introduce to you the most recent physician to join the CSC team, Dr. Vincent Carson, MD (pictured below). Dr. Carson joined the Clinic for Special Children in July 2016 as staff pediatrician and pediatric neurologist. He has a special interest in neurogenetics as reflected in his previous award-winning work on the natural history of Metachromatic Leukodystrophy (a rare, neurodegenerative disease). Vince earned his B.S. in Biochemistry and Molecular Biology from Penn State University in 2004 and his M.D. from Drexel University College of Medicine in 2011. He served as pediatric resident and pediatric neurology resident at the Children's Hospital of Pittsburgh of UPMC from 2011-2016. Dr. Carson has affiliations with the American Academy of Neurology and the Child Neurology Society.

Front (L-R): Dr. Vincent Carson, MD, Dr. Kevin Strauss, MD, Dr. Katie Williams, MD, PhD  
Back (L-R): Stephanie Kulp, Christine Hendrickson, Millie Young, Donna Robinson

As natives of Lancaster county and parents of four children ranging in age from 18 months to 10 years, Dr. Carson and his wife Jen are excited to again be close to their extended family. When he isn't in the office or with his family, you may find Dr. Carson playing ice hockey on a local community team!

Vince and is thrilled to be able to offer his services to children with special needs in the plain population and Lancaster community. He began seeing patients on September 1<sup>st</sup>.

Thank you for your continued support, trust and confidence.  
Sincerely,
