Overview

This event is designed to provide midwives with the most up-to-date information, emphasizing recent developments in midwifery healthcare practice and to provide key solutions to the latest challenges faced by midwives. We also present a comprehensive review of disease screening and management for commonly encountered diseases in Amish and Mennonite communities. This course is intended for certified nurse midwives, direct entry midwives, and others interested in the care of newborns.

Objectives

- Identify key features of genetic conditions that involve hearing loss in newborns.
- Review best practices for newborn hearing testing, reporting, and follow-up.
- Identify the benefits and limitations of clinical testing during pregnancy for optimizing prenatal and newborn management.
- Evaluate current and future use of Non-Invasive Prenatal Testing (NIPT) in routine prenatal care.
- Recognize the key features of myotonic dystrophy (DM1) in expectant mothers and their children
- Describe appropriate indications for fetal therapy.
- Discuss strategies for effective collaboration with prenatal and pediatric specialists, including identifying when to consult and integrating their recommendations into the care plan.
- Discover solutions to challenging issues in prenatal and newborn care.

Accreditation Statement

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Pennsylvania Medical Society through the joint providership of Lancaster General Hospital and The Clinic for Special Children. The Lancaster General Hospital is accredited by the Pennsylvania Medical Society to provide continuing medical education for physicians.

Credit Designation

The Lancaster General Hospital designates this live activity for a maximum of 5.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Conflict of Interest Statement

Faculty and all others who have the ability to control content of continuing medical education activities sponsored by Lancaster General Hospital are expected to disclose to the audience whether they do or do not have any real or apparent conflict(s) of interest or other relationships related to the content of their presentation(s).
